NEW DELHI 2 (INDIA); }
The 23rd July, 1951. }

S. P. JAIN,
for Registrar General, India.

NATIONAL SAVINGS

CERTIFICATE

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 30th June, 1951.

*In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

† Figures not available.

Explanation of symbols used :—B.—Births ; B.R.—Birth Rate ; C.—Cholera ; S.—Smallpox ; P.—Plague ; F.—Fever ; D. D.—Dysentery and Diarrhoea ; R.D.—Respiratory diseases ; M.D.—Maternal Deaths ; D.R.—Death Rate ; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement week ending the 30th June, 1951, relate to 178 towns with an estimated population of 23,698 thousands. The total number of towns is 236 and their population is 28,965 thousands. Thus 75% of the total number of towns representing 82% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 14,807 and 7,738 representing birth and death rates of 32.5 and 17.0 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 164 towns with an estimated population of 21,841 thousands. Information about Assam and Bihar could not be included. The total number of towns is 204 and their population is 25,135 thousands. Thus 80% of the total number of towns representing 87% of the total population is covered. The numbers of births and deaths

recorded in these towns were 13,843 and 7,285 representing birth and death rates of 33.0 and 17.3 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 14 towns with an estimated population of 1,857 thousands. The total number of towns is 32 and their population is 3,830 thousands. Thus 48% of the total number of towns representing 48% of the total population is covered. The numbers of births and deaths recorded in these towns were 964 and 453 representing birth and death rates of 27.0 and 12.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
